- Managing identities and permissions through Entra ID (Azure Active Directory) and RBAC principles.
- Performing mailbox administration and user support using Exchange Admin Center.
- Utilizing PowerShell scripting for administrative and automation-related tasks.
- Working with ServiceNow for incident, request, and change management processes.
- Supporting Dynamics 365 CRM and Power Platform solutions within enterprise environments.
- Troubleshooting user issues and assisting in day-to-day IT operations and infrastructure support activities.

🧠 Skills

Technical Skills

• Microsoft Technologies:

Microsoft 365 Administration | Entra ID (Azure AD) | Exchange Server 2019 | Exchange Admin Center | PowerShell | ServiceNow

• Cloud & Infrastructure:

Microsoft Azure | Identity & Access Management (IAM) | Active Directory | RBAC | Windows Administration | ServiceNow ITSM

• Business Applications:

Dynamics 365 CRM | Power Platform | Power Apps | Power Automate

• Programming & Development:

Python | Flask | JavaScript | HTML | CSS | REST APIs | Database Management

• Additional Skills:

Incident Management | Change Management | Technical Support | Troubleshooting | Automation

🎓 Academic Details

Bachelor of Computer Applications (BCA), Graphic Era Hill University, Dehradun

06/2025

• CGPA: 8.12/10

• Relevant Coursework: Data Structures, Web Development, Database Management

Project

Timetable-Pro, *Python, OpenPyXL, CSV*

05/2025

- Developed an automated system for conflict-free academic timetable generation.
- Implemented a rule-based and randomized heuristic algorithm to assign classes, faculty, and resources efficiently.
- Generated customized Excel timetables for each section and teacher, with built-in workload analysis.

Remote Mouse Control, *Python, Flask, PyAutoGUI*

12/2024

- Built a web app that allows users to control a computer's mouse via a mobile device.
- Used Flask for backend, with PyAutoGUI to simulate real-time mouse movements.
- Implemented QR code-based connectivity for easy access.

Snake Game, *JavaScript, HTML, CSS*

08/2024

- Created a classic Snake Game with smooth controls and real-time score tracking.
- Designed a responsive UI for seamless gameplay on different screen sizes.

Video Download Extension, *JavaScript, HTML, CSS*

08/2024

- Developed a browser extension to download videos from platforms like YouTube, Instagram Reels, Twitter, Facebook, and TikTok.
- Implemented content script injection and platform-specific video URL parsing to ensure reliable downloads across sites.
- Designed with a user-friendly interface and lightweight performance for smooth integration into browsers.

Spoiler Blocker, *JavaScript, HTML, CSS*

05/2024

- Developed a lightweight browser extension to block spoilers on social media, focusing on Instagram.
- Implemented a customizable keyword filtering system to detect and blur spoiler content in real time, enhancing the browsing experience.
- Optimized for cross-browser compatibility with Chrome and Firefox, with plans for additional platforms.

Certifications

Microsoft Azure Essentials Professional Certificate by Microsoft and LinkedIn  — July 2026

Introduction to Microsoft Azure Cloud Services on Coursera  — June 2026

Foundations of User Experience (UX) Design on Coursera  — March 2025

NSS 'B' & 'C' Certificates

CSS, JavaScript, PHP And Python Programming All in One Course on Udemy  — November 2024

PHP Tutorial Beginner to Advanced on Udemy  — June 2024

Python And Flask Demonstrations Practice Course on Udemy  — December 2023

C-level management: proven frameworks and techniques on Udemy  — November 2023

Extra Curricular Activities

Designer at NSS

Created posters & digital content for events, improving engagement by 80%.

NSS Volunteer

Assisted in organizing community service programs & tech awareness camps.
